

NCC Education is a global provider and awarding body of British education. It provides the complete education solution to over 200 Accredited Partner Centres in more than 45 countries worldwide. NCC works in partnership with Accredited Partner Centres and universities to provide students with an affordable route to obtain a UK university degree or master's in Business or IT. Our flexible approach to providing the International Degree Pathway allows students to enter or leave their degree journey at their own pace and receive a certificate for their achievements at each stage. Over 1,000,000 students have boosted their careers with our programmes

Our postgraduate level programmes are designed for candidates seeking further HE level study or for those pursuing senior management posts in the fields of Business or IT. Our range of postgraduate and masters level programmes are equivalent to National Qualifications Framework (NQF) Levels 6 and 7.

### **Postgraduate Diploma in Business Management (PgD BM)**

Designed to further develop your career in management, covers a wide range of contemporary issues and develops the critical, analytical and technical skills needed by senior management staff. The programme will also develop the academic skills required for further study at postgraduate level.

### **Postgraduate Diploma in Strategic Business IT (PgD SBIT)**

Designed for IT and computing graduates/practitioners who wish to develop their career further. The programme covers a wide range of contemporary issues and develops the critical, analytical and technical skills needed by senior staff. Also develops the academic skills required for further study at master's level.

### **Postgraduate Diploma in Strategic Business IT (PgD SBIT)**

### **National Qualifications Framework (NQF) Level: 7**
