

Qualifi is a UK regulated awarding body offering academic and vocational qualifications and assessment to schools, colleges, employers and other places of learning in the UK and internationally. Our core business activities include:

- Working with individuals, employers and organisations to Assess their needs and requirements from a certification and training perspective;
- Identify the most effective means to Test this requirement;
- Ultimately generate opportunities for the client to Certify individuals and organisations.

Qualifi work collaboratively, with other leading awarding bodies, sector skills councils, training providers, universities, colleges and employers to develop innovative frameworks, create qualifications and learning support materials and propose appropriate assessments for their relevant industries.

Qualifi independently or through collaborative partnerships are able to provide accreditation in over 45 countries. We provide recognition through governments, employers, and universities to ensure students can progress into employment or further education, wherever they are.

Qualifi partners include schools, colleges, universities, training providers, employers and other places of learning. Qualifi have collaborated to assist many organisations that include:

Our goal

To be recognised as the global provider of recognised, accredited, quality standards by providing a platform to gain valued learning.

Mission statement

We believe that accredited, valued learning is the solution to both personal and organisational effectiveness and social and economic prosperity.

We partner globally with individuals and organisations to enable them to realise their potential and achieve success by:

- Providing world class service and in the process elevate the status and credibility of our partner organisations globally
- Assisting in the development and delivery of learning appropriate to individual, organisation and sectors goal

Our vision

Qualifi aspires to be a global authority on accreditation and qualifications to develop the educational needs to all those looking to further their knowledge and understanding.

- Providing recognised qualifications and endorsing bespoke programmes
- Developing innovative learning services and products
- Designing tailored learning and development solutions
- Accrediting learning centres to recognise quality assurance standards Continually reassessing standards in line with regulatory requirements

Accreditation

Recent research demonstrates that there are significant benefits to be gained from certifying individuals, employees and organisations alike.

These include:

- Increased service levels and productivity
- Increased competitive advantage
- Improved recruitment

Qualifi is focused on developing certifications across multiple industry sectors. We work with partners who employ a completely unique approach in the development and delivery of new qualification to ensure consistency and clearly understood methods.

The key elements of our success are complete and continuing sensitivity to the needs of the industry, our clients and the end user, whilst incorporating added-value services and provision to reflect these.

- ☐ Greater access to preferred support

As a regulated Awarding body Qualifi are able to create new qualifications and accredit to the Qualifications and Credit Framework (QCF). Alternatively organizations or training providers may wish to proceed with a customised qualification (CQ). This achievement also ensures consistency of delivery and recognition against valuable learning outcomes.

Qualifi develop innovative frameworks to support qualifications. We have worked with corporate clients, governmental and trade bodies, Universities and at industry level in developing meaningful and relevant certification programmes.

QUALIFICATION

Qualifi provide a number of qualifications across many sectors.

- ☐ Engineering
- ☐ Hospitality
- ☐ IT

- ☐ Business Administration
- ☐ Business Management
- ☐ Business Process Outsourcing
- ☐ Contact Centres
- ☐ Customer Service

COURSE ACCREDITAION

"Qualifi accredit
in-house training programmes
against appropriate learning
outcomes"

At Qualifi, we maintain rigorous internal and external quality assurance processes in order to underpin the integrity and credibility of our qualifications.

Our training partners - schools, colleges, training providers, employers and other places of learning - need to satisfy strict quality measures before we approve them to deliver our qualifications. These quality measures encompass an institution's systems and processes; the credentials of teaching staff; facilities and premises; and the level and quality of support they provide to their students.

As a regulated Awarding body Qualifi are able to create new qualifications and accredit to the Qualifications and Credit Framework (QCF).

Alternatively organisations or training providers may wish to proceed with a customised qualification (CQ). This achievement also ensures consistency of delivery and recognition against valuable learning outcomes.

In summary:

Higher return on investment per employee improved and competent employees will return greater levels of service.

Objective assurance of learning outcomes work based blended learning programmes can focus on company objectives not theory.

Improved understanding of employee development through introduction of career paths and linked progressive qualifications.

Employee benefits:

National / International recognition of competence accreditation against QCF and NOS.

Credibility increased to support any future work placement applications as a portfolio of accredited learning recognises value and understanding any industry.

Value of their role and importance more recognised qualifications signify investment and greater recognition to the company.

Motivated to excel through education and

Qualifi accredit in-house training programmes against appropriate learning outcomes.

Qualifi map and create new content against new or existing frameworks.

Assess the needs and requirements from both independent and member organisations from a certification and training perspective

Identify the most effective means to Test this requirement;

And to ultimately generate opportunities for the client to Certify individuals and organisations.

Accrediting school, college, organisation and training provider courses against a genuine standard by a regulated award body such as ourselves can have many benefits for both employers and employees:

Employer benefits:

Credibility for the organisation to external audiences recognising that all employees are qualified to a recognised standard.

Employee competence improved in mission critical areas by targeting and focusing on specific learning outcomes.

action-based learning as Career Paths can be clearly identified so greater understanding of progression realised.

Commitment to the job and to the employing organisation as investment through accredited learning shows value in individual and the return is greater.

In order to determine the best possible solutions it is important to understand to what extent accreditation and qualifications need to be created and for whom.

In addition it is essential that our training partners - schools, colleges, training providers, employers and other places of learning - understand the working relationships between awarding bodies, sector skills councils etc so that they can determine which route to take.

Qualifi can assist with this guidance and coordinate the development and process of new accreditations, qualifications or map programmes into those already existing.

To discuss our accreditation process in further detail please contact us.
